Call Report

Client: PT Astra International Tbk (ASII)
Meeting date: 2026-10-21
Prepared by: Dewi Lestari, Relationship Manager, Corporate Banking
Attendees: Dewi Lestari (RM); Budi Santoso, Head of Group Treasury; Hendra Kusuma, Chief Financial Officer
Purpose: Capital expenditure plans for the fourth quarter and the working capital facility.

Discussion

- The client plans capital expenditure of about IDR 3 trillion in the fourth quarter of 2026 for an electric vehicle battery plant in West Java, with a partner from South Korea.
- Construction starts in November 2026. Payments to contractors and equipment suppliers are concentrated in November and December.
- The client expects to draw more on the working capital facility in November and December to bridge the payments until the project financing is signed in early 2027.
- The facility limit is IDR 500 billion today. Usage has been around 55 to 60 percent this year.
- The client asked whether the limit of the working capital facility can be increased for the construction period.
- The payroll accounts for the logistics subsidiary are on track for January 2027.

Client plans

- About IDR 3 trillion of capital expenditure in Q4 2026 for an EV battery plant.
- More drawing on the working capital facility in November and December 2026.

Client requests

- An increase of the working capital facility limit for the construction period.

Follow-ups

- Discuss the limit increase request with the credit team. Owner: RM. Due: 15 Nov 2026.
- Share the project timeline and the expected drawing schedule. Owner: Client treasury. Due: 31 Oct 2026.

Next meeting: Early December 2026
